KEEP YOURSELF SAFE FROM THE COVID-19 VIRUS! HYGIENE AND SANITATION BEST PRACTICES

INSIDE YOUR HOME

- Wash hands thoroughly and vigorously for at least 20 seconds before leaving your home, and as soon as you return.
- Take off outdoor shoes at the door when you enter. Wipe down and sanitize them regularly.
- Request that food delivery items are left on the front step. Once received, remove all food from restaurant packaging and place on your own dishes. Discard all packaging immediately and wash hands before eating.
- Wipe down and disinfect frequently touched surfaces and objects regularly, including sink handles, bathroom toilets, kitchen appliance surfaces, food preparation surfaces, keyboards, mobile devices, gaming equipment, computer equipment.

RETURNING HOME:

- Ensure to clean and wipe down everything brought into your home:
 - Wipe down all packaging and containers.
 - Thoroughly rinse fruits and vegetables.
 - Dispose of plastic bags and boxes.
 - Wash any reusable material thoroughly after each use.
- Change out of clothes worn out of the home and wash clothes frequently.

OUTSIDE YOUR HOME:

- Wipe down/sanitize garbage, recycling and organics bins before/after each pick up.
- Wipe down/sanitize your vehicle's door handles, steering wheel, gear shift and other high touch points after each use.
- Wipe down/sanitize garage door handles, buttons, fence handles and other frequently touched objects.
