

**FORM C**  
Exterior Wall Claddings of  
Part 9 Building Cladding Systems

Permit Number: \_\_\_\_\_

**RE: Design and Field Review of Construction for the following project**

Project Name: \_\_\_\_\_

Project Address: \_\_\_\_\_

Legal Description: \_\_\_\_\_

I hereby give the assurance that the materials, installation and application of the exterior claddings described in the documents prepared and submitted in support of this application for a building permit will meet the requirements and intent of Part 9 Division B of the National Building Code – Alberta Edition 2019. **I have an understanding or have employed someone who has an understanding of moisture control methods.**

I also undertake to notify the *Authority Having Jurisdiction* in writing if the contract for *field review* is terminated at any time during construction.

I also confirm that the *Authority Having Jurisdiction* takes no responsibility for the use of this exterior wall cladding system in this project and I have advised the owner of this fact.

1. **Stucco Claddings – Division B, Section 9.28**

The exterior stucco will meet the requirements and intent of Division B, Section 9.28, National Building Code – Alberta Edition 2019 and the standards references herein as guide of best practice:

- CAN/CSA-A3002 – “Cementitious Materials for Use in Concrete”
- AST C929 – “Standard Specifications of Application of Portland Cement-Based Plaster”
- ASTM C1063 – “Standard Specifications for Installation of Lathing and Furring to Receiver Interior and Exterior Portland Cement-based Plaster”

2. **Other – Claddings – Division B, Section 9.27**

Other Cladding listed in Division B, Section 9.27, will meet the requirements and intent of Section 9.27 of the National Building Code – Alberta Edition 2019 and the standards referenced in the Code.

3. **Field Review**

I hereby undertake to be responsible for field review during construction as indicated in the following summary:

- Moisture management control, including protection from precipitation and interior/exterior moisture ingress control especially at openings and penetrations.
- Cladding movement control and thermal expansion.
- Selection and installation of materials including sheathing, sheathing membrane, flashings and stucco installation including (but not limited to) reinforcing lath, stucco batching and mixing, stucco application and curing OR Other cladding installation including (but not limited to) all requirements of Division B, Section 9.27 and 9.20 and any references by the National Building Code – Alberta Edition 2019.
